

Maidensbridge Primary School

Community User- Acceptable Use policy

Rules for Responsible Internet use

This policy applies to all community users of the schools systems, who have guest access to the internet. We trust you to use the ICT facilities sensibly, professionally, lawfully, and in accordance with this Policy.

It is important that you read this policy carefully. If there is anything that you do not understand, please ask. Once you have read and understood this policy thoroughly, you should sign this document, retain a copy for your own records and return the original to the school office.

Research Machines (RM) has a contractual obligation to monitor the use of the internet and e-mail services provided as part of DGfL, in line with The Telecommunications (Lawful Business Practice) (Interception of Communications) Regulations 2000. Traffic data and usage information may be recorded and RM, Dudley MBC and the school reserve the right to disclose any information they deem necessary to satisfy any applicable law, regulation, legal process or governmental request.

When entering an internet site, always read and comply with the terms and conditions governing its use. Be aware at all times that when visiting an internet site the unique address for the computer you are using (the IP address) can be logged by the site you visit, thus identifying our school. For your information, the following activities are criminal offences under the Computer Misuse Act 1990:

- unauthorised access to computer material i.e. hacking;
- unauthorised modification of computer material; and
- unauthorised access with intent to commit/facilitate the commission of further offences.

In line with this policy, the following statements apply:-

- Do not download any image, text or material which is copyright protected without the appropriate authorisation.
- Do not download any image, text or material which is inappropriate or likely to cause offence. If this happens accidentally report it to a member of staff
- If you want to download any software, first seek permission from the member of staff responsible. They should check that the source is safe and appropriately licensed.
- You should not :
 - introduce packet-sniffing software (i.e. software which is used to intercept data on a network) or password detecting software;
 - seek to gain access to restricted areas of the network;
 - knowingly seek to access data which you are not authorised to view;
 - introduce any form of computer viruses;

I have read through and fully understand the terms of the policy. I also understand that the school may amend this policy from time to time and that I will be issued with an amended copy.
